Macomb Dental Society presents

“Image-ine” the possibilities

Please join us for the 8th annual Half Day Seminar.

3 C.E. Credits

Date: Friday, March 23, 2018

Time: 8:30am to noon

Location: Andiamo Warren
7096 East 14 Mile Rd.
Warren, MI 48092

Course objective: to overcome our fear of dental radiographs, recognize the importance of 3D imaging in diagnosis and treatment planning, to understand the importance of radiology reports and to understand the role of CBCT in multi-disciplinary treatment.

"Interpreting Diagnostic Imaging of the TMJ", Dr. Jennifer Priebe
Course objectives: To understand the dynamics of the TMJ anatomy in motion, to recognize signs of dysfunction of the TMJ's on panoramic radiographs, CBCT's, and MRI's, to recognize occlusal parameters that may be affected by the joints when dysfunction is suspected, and deciding when to request an MRI versus a CBCT of the TMJ when dysfunction is suspected.
